Increasingly, many businesses have dealings in foreign currencies and, unless exchange rates are fixed with respect to one another, this introduces risk.

Foreign currency risk and its management | ACCA ...

Creating a hedge against currency risk can be very expensive. By definition, investors need to offset every foreign currency unit with a U.S. dollar in order to be fully hedged. Some of these costs can be lowered by using stock options in lieu of equity, but the cost may still be prohibitive for individual investors with small investments. As a result, investors should first see if a hedge is even necessary.

Learn About Currency Risk In International Business
