Critical Care Flow Sheet Hospital Forms

"In the Critical Care flow sheet, providers can document with less steps than the current process. Not only that, they see the progress of the patient in real-time and the documentation sequence. Even though we're starting with critical care, every unit in the hospital wants this functionality, and we're going to roll it out to them — it's a very powerful way to view and document."

What Is Patient Flow?

Patient data will be collected daily from patient bedside charts and flow sheets by Critical Care Database clerks, entered into a database and then compiled into individual score cards. The charts and flow sheets contain all of the patient information used in the scorecard (see table 2). Audits of quality review have been conducted from January 2016 to January 2017, to ensure data entry by Critical Care Database clerks correlated with actual patient data.
