Chapter 20 - Bullying and Social Emotional Wellbeing in ...

Social development is the way in which humans learn to interact with one another. Emotional self-regulation refers to a child's ability to change his or her emotional state to either match that of others (social), or make the child more comfortable in a particular situation (social and personal). The ability to empathize, or identify with the feelings of another person, helps aid in the development of prosocial (socially positive) and altruistic (helpful, beneficent, or unselfish) behavior.
