The Landscape Architectural Design Process The design process can be broken down into four phases: design brief, design development, construction, and project closeout. These phases are not a linear sequence but overlap and interact in many ways.

A Walk Through the Landscape Architecture Process: What ...

The concept design stage is when the landscape architect puts pen to paper (or stylus to screen) to develop the initial ideas for the project. There are varying scale projects from residential to

large parks to urban master plans. A small residential project may have the client (owner) and the landscape architect involved in the project.

PRACTICE | Stages of a Landscape Architecture design project

During this phase you, the homeowner, will work closely with a landscape designer or architect that specializes in residential design. Together you will address design considerations such as the desired purpose for you yard, what features will be included and what landscaping style will be employed. The designing phase ends with you receiving a completed plan that proposes location and materials for hardscapes and outdoor living features, as well as plants.
