Global Inequality Trends And Issues Unu Wider

Global Income Inequality Since 1980, the World Inequality Report data has shown that the share of national income going to the richest 1 percent has increased rapidly in North America (defined here as the United States and Canada), China, India, and Russia

and more moderately in Europe.

Global Inequality - Inequality.org

The global inequality of opportunity in today's world is the consequence of global inequality in health, wealth, education and the many other dimensions that matter for our lives. Your living conditions are much more determined by what is outside your control – the place and time that you are born into – than by your own effort, dedication, and the choices you have made in life.
