Adventure Capitalist

The Ultimate Road Trip *Random House Trade Paperbacks*
Drive . . . and grow rich! The bestselling author of Investment Biker is back from the ultimate road trip: a three-year drive around the world that would ultimately set the Guinness record for the longest continuous car journey. In Adventure Capitalist, legendary investor Jim Rogers, dubbed “the Indiana Jones of finance” by Time magazine, proves that the best way to profit from the global situation is to see the world mile by mile. “While I have never patronized a prostitute,” he writes, “I know that one can learn more about a country from speaking to the madam of a brothel or a black marketeer than from meeting a foreign minister.” Behind the wheel of a sunburst-yellow, custom-built convertible Mercedes, Rogers and his fiancée, Paige Parker, began their “Millennium Adventure” on January 1, 1999, from Iceland. They traveled through 116 countries, including many where most have rarely ventured, such as Saudi Arabia, Myanmar, Angola, Sudan, Congo, Colombia, and East Timor. They drove through war zones, deserts, jungles, epidemics, and blizzards. They had many narrow escapes. They camped with nomads and camels in the western Sahara. They ate silkworms, iguanas, snakes, termites, guinea pigs, porcupines, crocodiles, and grasshoppers. Best of all, they saw the real world from the ground up—the only vantage point from which it can be truly understood—economically, politically, and socially. Here are just a few of the author’s conclusions: • The new commodity bull market has started. • The twenty-first century will belong to China. • There is a dramatic shortage of women developing in Asia. • Pakistan is on the verge of disintegrating. • India, like many other large nations, will break into several countries. • The Euro is doomed to fail. • There are fortunes to be made in Angola. • Nongovernmental organizations (NGOs) are a scam. • Bolivia is a comer after decades of instability, thanks to gigantic amounts of natural gas. Adventure Capitalist is the most opinionated, sprawling, adventurous journey you’re likely to take within the pages of a book—the perfect read for armchair adventurers, global investors, car enthusiasts, and anyone interested in seeing the world and understanding it as it really is.

Street Smarts

Adventures on the Road and in the Markets *Currency*

Hot Commodities

How Anyone Can Invest Profitably in the World's Best Market *John Wiley & Sons*
The next bull market is here. It’s not in stocks. It’s not in bonds. It’s in commodities - and some smart investors will be riding that bull to record returns in the next decade. Before Jim Rogers hit the road to write his best-selling books Investment Biker and Adventure Capitalist, he was one of the world’s most successful investors. He co-founded the Quantum Fund and made so much money that he never needed to work again. Yet despite his success, Rogers has never written a book of practical investment advice - until now. In Hot Commodities, Rogers offers the low-down on the most lucrative markets for today and tomorrow. In late 1998, gliding under the radar, a bull market in commodities began. Rogers thinks it’s going to continue for at least fifteen years - and he’s put his money where his mouth is: In 1998, he started his own commodities index fund. It’s up 165% since then, with more than \$200 million invested, and it’s the single-best performing index fund in the world in any asset class. Less risky than stocks and less sluggish than bonds, commodities are where the money is - and will be in the years ahead. Rogers’s strategies are simple and straightforward. You can start small - a few thousand dollars will suffice. It’s all about putting your money into stuff you understand, the basic materials of everyday life, like copper, sugar, cotton, corn, or crude oil. Once you recognize the cyclical and historical trading patterns outlined here, you’ll be on your way. In language that is both colourful and accessible, Rogers explains why the world of commodity investing can be one of the simplest of all - and how commodities are the bases by which investors can value companies, markets, and whole economies. To be a truly great investor is to know something about commodities. For small investors and high rollers alike, Hot Commodities is as good as gold . . . or lead, or aluminium, which are some of the commodities Rogers says could be as rewarding for investors.

A Bull in China

Investing Profitably in the World's Greatest Market *John Wiley & Sons*
Profiting from China without getting burned is currently anobsession with the international investment community. Theestimated size of the Chinese economy has just been revisedupwards, making it the 4th largest in the world behind the US,Japan and Germany, and ahead of the UK but the idea

that investingin China is a sure-fire, get-rich-quick investment story isdangerously misleading. * The author of the bestselling Investment Biker, AdventureCapitalist, and Hot Commodities, is providing a book that providesa window into what will soon be the most vital, most lucrativemarket of our time: China. * While the Chinese economy has had an annual average growth of 9.4percent since 1978, and despite the ongoing speculation aboutChina's future, its stock market is now emerging from a six-yearlow. * As the Chinese economy continues to lumber toward a free marketsystem - and as the Chinese government inevitably unpegs itscurrency and opens its stock market to more foreign investment,Rogers foresees an abundance of opportunities for investors. * In this book, he shows readers not only how to take advantageof China's coming dominance - what, where, how, and when to buy - buthow China will impact individual companies, markets, and economiesaround the world. * "Nobody with blue eyes has ever made money investing in China,"the old saying goes. Jim Rogers aims to disprove this adage. Jim Rogers co-founded the Quantum Fund and retired at age 37. Sincethen, he has served as a sometime professor of finance at ColumbiaUniversity's business school, and as a media commentator. Heappears twice a week on Fox Business News, and is the author ofthree immensely successful books.

A Gift to my Children

A Father's Lessons for Life and Investing *John Wiley & Sons*

When I was a boy, my father often pulled me aside to convey lessons intended to build what we generally refer to as "character". Often his advice was very simple — work hard, think for yourself, do right by others — but I believe those lessons provided the foundation for everything that has followed in my life. Now that I'm a dad myself, I wanted to put them down in one place, with examples of my own experiences, as a guide to life, adventure, and investing, both for my young daughters and for anyone seeking success in his or her chosen field. I hope that parents will be inspired to give this book to their children, and vice versa, as many of the lessons that I have learned apply not just to young people but to all adults—for example, question everything, never follow the crowd, and beware of boys! What a lovely, lovely book! Though I've read all you've written, this one really touched me. It is, of course, a love letter to your daughters, which is not only a wonderful, meaningful thing to do, but it was filled with exactly the kind of advice all fathers should give. Your new book will stay on my shelf for a long, long time, and I'll be giving it to my own kids to read. --Nicholas Sparks, author of The Notebook, Dear John, and The Last Song

Don’t Call Me Mrs Rogers: Love Loathing and Our Epic Drive Around the World *Epigram Books*

During the epic journey, Paige's world view is turned upside down, eventually leading her and her family to their ideal home in Singapore. On the road trip, she meets women from every walk of life, inspiring monks in China, boy soldiers in Angola and oppressive patriarchy in too many countries, yet she walks away with a profound faith in humankind. She now wants to pass the lessons from the road to her two daughters, to women everywhere and to all intrepid travellers.

The Apostolic Pattern

God's Blueprint for Christian Unity *Createspace Independent Pub*

The primary source of disagreement in the religious world is a departure from the New Testament pattern given by the apostles, with churches relying instead on opinion for authority in religious practice and doctrine. By abandoning the apostolic original Christ's church has been left behind, producing today's debate and division. The only way to achieve the unity Christ prayed for is a return to the pattern He gave through His apostles. What is that pattern, how is it gleaned from scripture, and how is it applied in the 21st century? Rogers shows that by letting the Bible speak for itself, employing the same methods to interpret scripture that were used in New Testament times, a clear set of expectations emerges: a blueprint for the church's faith, practice, and purity. All who follow it will stand shoulder to shoulder with the first-century Christians: teaching for doctrine only what they taught, organizing as they were organized, and worshiping as they worshiped. The apostolic pattern is thus a blueprint for Christian unity, the only ground upon which everyone may stand with complete assurance that all they do is pleasing to God.

Cochabamba!

Water War in Bolivia *South End Press*

Historically a common trust, water is now bought and sold as a private commodity. With billions at the mercy of an unrestrained marketplace, it is easy to understand why this precious resource is at the center of the international movement working to turn back the rising tide of corporate globalization. The triumphant struggle of grassroots activists in Cochabamba, Bolivia, sounded a significant opening salvo in the water wars. In 2001, water warriors there regained control of their water supply and defied all odds by driving out the transnational corporation that had stolen their water in the first place. ¡Cochabamba! is the story of the first great victory against corporate globalization in Latin America. Oscar Olivera, a 45-year-old machinist who helped shape and lead a movement that brought thousands of ordinary people to the streets, powerfully conveys the perspective of a committed participant in a victorious and inspirational rebellion. The beloved and highly respected Olivera relates the selling of the city's water supply to Aguas del Tunari--a subsidiary of US-based Bechtel--the subsequent astronomical rise in water prices, and the refusal of poverty-strapped Bolivians to pay them. Olivera brings us to the front lines of a movement, chronicling how the people organized an opposition and the dramatic struggles that eventually defeated the privatizers. With hard-won political savvy, Olivera reflects on major themes that emerged from the war over water: the fear and isolation that Cochabambinos faced with a spirit of solidarity and mutual aid; the challenges of democratically administering the city's water supply; and the impact of the water wars on subsequent resistance. Oscar Olivera is president of the Cochabamba Federation of Factory Workers and 2001 winner of the prestigious Goldman Environmental Prize. Tom Lewis is Latin America editor for the International Socialist Review and professor of Spanish at the University of Iowa.

Brazen

My Unorthodox Journey from Long Sleeves to Lingerie *Crown*

From the star of the Netflix reality series My Unorthodox Life, a riveting, inspiring memoir of one woman’s escape from an extremist religious sect and an extraordinary rise from housewife to shoe designer, to CEO and co-owner of the modeling agency Elite World Group “An irresistible read . . . Written with great intensity and rare candor, Brazen is a story of longing for more and manifesting that vision.”—Tommy Hilfiger Ever since she was a child, every aspect of Julia Haart’s life—what she wore, what she ate, what she thought—was controlled by the dictates of ultra-Orthodox Judaism. At nineteen, after a lifetime spent caring for her seven younger siblings, she was married off to a man she barely knew. For the next twenty-three years, her marriage would rule her life. Eventually, when Haart’s younger daughter, Miriam, started to innocently question why she wasn’t allowed to sing in public, run in shorts, or ride a bike without being covered from neck to knee, Haart reached a breaking point. She knew that if she didn’t find a way to leave, her daughters would be forced into the same unending servitude that had imprisoned her. So Haart created a double life. In the ultra-Orthodox world, clothing has one purpose—to cover the body, head to toe—and giving any thought to one’s appearance beyond that is considered sinful, an affront to God. But when no one was looking, Haart would pore over fashion magazines and sketch designs for the clothes she dreamed about wearing in the world beyond her Orthodox suburb. She started preparing for her escape by educating herself and creating a “freedom” fund. At the age of forty-two, she finally mustered the courage to flee the fundamentalist life that was strangling her soul. Within a week of her escape, Haart founded a shoe brand, and within nine months, she was at Paris Fashion Week. Just a few years later, she was named creative director of La Perla. Soon she would become co-owner and CEO of Elite World Group, and one of the most powerful people in the fashion industry. Along the way, her four children—Batsheva, Shlomo, Miriam, and Aron—have not only accepted but embraced her transformation. Propulsive and unforgettable, Haart’s story is the journey from a world of no to a world of yes, and an inspiration for women everywhere to find their freedom, their purpose, and their voice.

Lighting the World

Transforming our Energy Future by Bringing Electricity to Everyone *St. Martin's Press*

1.2 billion people on Earth still don't have electricity. Even where cell phones are now common, like sub-Saharan Africa and parts of India, villagers still walk miles to charge them. But new large-scale, sustainable solutions will not only usher in a new era of light, but be an important first step in lifting people from poverty and putting them on a road of sustainable economic development. Also, a unique, transforming opportunity for Western thinkers and practitioners will be created. These areas have largely skipped the analog stage of power development, and have moved straight from the middle ages to the digital age. They are not encumbered by existing infrastructure, dependence on fossil fuels, or too many outdated laws and regulations. An ideal innovation incubator, the developing world might just be the best way to make progress on our own energy issues at home. Jim Rogers is leading a grand collaborative effort to bring sustainable, clean electrical power to everyone who lacks it. This reverse engineering, he contends, could solve the energy crises of America and Europe, while also making the world a cleaner, smarter place. But it won't be easy. In Lighting the World, Rogers details the bold thinking, international cooperation, and political will required to illuminate the future for everyone.

The Wreck of the Medusa *Open Road + Grove/Atlantic*

A “thrilling . . . captivating” account of the most famous shipwreck before the Titanic—a tragedy that inspired an unforgettable masterpiece of Western art (The Boston Globe). In June 1816, the Medusa set sail. Commanded by an incompetent captain, the frigate ran aground off the desolate West African coast. During the chaotic evacuation a privileged few claimed the lifeboats, while 147 men and one woman were herded aboard a makeshift raft that was soon cut loose by the boats that had pledged to tow it to safety. Those on the boats made it ashore and undertook a two-hundred-mile trek through the sweltering Sahara, but conditions were far worse on the drifting raft. Crazed, parched, and starving, the diminishing band fell into mayhem. When rescue arrived thirteen days later, only fifteen were alive. Among the handful of survivors were two men whose bestselling account of the maritime disaster scandalized Europe and inspired promising artist Théodore Géricault, who threw himself into a study of the Medusa tragedy, turning it into a vast canvas in his painting, The Raft of the Medusa. Drawing on contemporaneously published accounts and journals of survivors, The Wreck of the Medusa is “a captivating gem about art’s relation to history” (Booklist) and ultimately “a thrilling read” (The Guardian).

How to Avoid a Climate Disaster

The Solutions We Have and the Breakthroughs We Need *Knopf*

#1 NEW YORK TIMES BEST SELLER • In this urgent, authoritative book, Bill Gates sets out a wide-ranging, practical—and accessible—plan for how the world can get to zero greenhouse gas emissions in time to avoid a climate catastrophe. Bill Gates has spent a decade investigating the causes and effects of climate change. With the help of experts in the fields of physics, chemistry, biology, engineering, political science, and finance, he has focused on what must be done in order to stop the planet's slide to certain environmental disaster. In this book, he not only explains why we need to work toward net-zero emissions of greenhouse gases, but also details what we need to do to achieve this profoundly important goal. He gives us a clear-eyed description of the challenges we face. Drawing on his understanding of innovation and what it takes to get new ideas into the market, he describes the areas in which technology is already helping to reduce emissions, where and how the current technology can be made to function more effectively, where breakthrough technologies are needed, and who is working on these essential innovations. Finally, he lays out a concrete, practical plan for achieving the goal of zero emissions—suggesting not only policies that governments should adopt, but what we as individuals can do to keep our government, our employers, and ourselves accountable in this crucial enterprise. As Bill Gates makes clear, achieving zero emissions will not be simple or easy to do, but if we follow the plan he sets out here, it is a goal firmly within our reach.

Travels in Siberia *Farrar, Straus and Giroux*

A Dazzling Russian travelogue from the bestselling author of Great Plains In his astonishing new work, Ian Frazier, one of our greatest and most entertaining storytellers, trains his perceptive, generous eye on Siberia, the storied expanse of Asiatic Russia whose grim renown is but one explanation among hundreds for the region's fascinating, enduring appeal. In Travels in Siberia, Frazier reveals Siberia's role in history—its science, economics, and politics—with great passion and enthusiasm, ensuring that we'll never think about it in the same way again. With great empathy and epic sweep, Frazier tells the stories of Siberia's most famous exiles, from the well-known—Dostoyevsky, Lenin (twice), Stalin (numerous times)—to the lesser known (like Natalie Lopukhin, banished by the empress for copying her dresses) to those who experienced unimaginable suffering in Siberian camps under the Soviet regime, forever immortalized by Aleksandr Solzhenitsyn in The Gulag Archipelago. Travels in Siberia is also a unique chronicle of Russia since the end of the Soviet Union, a personal account of adventures among Russian friends and acquaintances, and, above all, a unique, captivating, totally Frazierian take on what he calls the "amazingness" of Russia—a country that, for all its tragic history, somehow still manages to be funny. Travels in Siberia will undoubtedly take its place as one of the twenty-first century's indispensable contributions to the travel-writing genre.

Pilgrimage in the Marketplace *Routledge*

The study of pilgrimage often centres itself around miracles and spontaneous populist activities. While some of these activities and stories may play an important role in the emergence of potential pilgrimage sites and in helping create wider interest in them, this book demonstrates that the dynamics of the marketplace, including marketing and promotional activities by priests and secular interest groups, create the very consumerist markets through which pilgrimages become established and successful - and through which the 'sacred' as a category can be sustained. By drawing on examples from several contexts, including Japan, India, China, Vietnam, Europe, and the Muslim world, author Ian Reader evaluates how pilgrimages may be invented, shaped, and promoted by various interest groups. In so doing he draws attention to the competitive nature of the pilgrimage market, revealing that there are rivalries, borrowed ideas, and alliances with commercial and civil agencies to promote pilgrimages. The importance of consumerism is demonstrated, both in terms of consumer goods/souvenirs and pilgrimage site selection, rather than the usual depictions of consumerism as tawdry disjunctions on the 'sacred.' As such this book reorients studies of pilgrimage by highlighting not just the pilgrims who so often dominate the literature, but also the various other interest groups and agencies without whom pilgrimage as a phenomenon would not exist.
