Nathaniel Bowditch and the Power of Numbers

How a Nineteenth-Century Man of Business, Science, and the Sea Changed American Life *UNC Press Books*

In this engagingly written biography, Tamara Plakins Thornton delves into the life and work of Nathaniel Bowditch (1773-1838), a man Thomas Jefferson once called a "meteor in the hemisphere." Bowditch was a mathematician, astronomer, navigator, seafarer, and business executive whose Enlightenment-inspired perspectives shaped nineteenth-century capitalism while transforming American life more broadly. Enthralled with the precision and certainty

of numbers and the unerring regularity of the physical universe, Bowditch operated and represented some of New England's most powerful institutions—from financial corporations to Harvard College—as clockwork mechanisms. By examining Bowditch's pathbreaking approaches to institutions, as well as the political and social controversies they provoked, Thornton's biography sheds new light on the rise of capitalism, American science, and social elites in the early republic. Fleshing out the multiple careers of Nathaniel Bowditch, this book is at once a lively biography, a window into the birth of bureaucracy, and a portrait of patrician

life, giving us a broader, more-nuanced understanding of how powerful capitalists operated during this era and how the emerging quantitative sciences shaped the modern experience.

Carry On, Mr. Bowditch Study Guide CD-ROM

Nathaniel Bowditch loves to work with numbers. School is Nat's favorite time. Unfortunately Nat must give up his dream to go to Harvard when he must quit school to work for his father. Later, he becomes an

indentured servant, working in a ship's chandlery. In spite of his situation, Nat continues his education by teaching himself. He works all day in the chandlery and in the evenings fills his notebooks with everything he wants to learn. Nat's diligence pays off. When Nat's nine-year indenture is through, he is given the opportunity to go to sea where the things he has learned may be put to use. Sailing is dangerous, not only because of enemies on the high seas, but because - Nat discovers - many of the books and tables sailors use for navigation have errors - errors that cost lives. With the same diligence he used to teach himself, Nat begins to compile

information for a new book to correct these errors and give every sailor knowledge of navigation. Carry On, Mr. Bowditch is the biography of a man who, although unable to finish school, educated himself so thoroughly that sailors still use the book he wrote in the eighteenth century. First published in 1932, *Young Fu of the Upper Yangtze* was one of the earliest Newbery Medal winners. As with all Edith Nesbit's tales, The Magic City has generous helpings of humour, imagination and interesting ideas, as well as the over-arching story of how a boy and girl who have unwillingly become step-brother and sister eventually learn to like each other. A story that works on many levels and will be equally enjoyed by adults and children."

he can barely afford to feed.

Trail Blazer of the Seas *Purple House Press*

From the author of *Carry On, Mr. Bowditch*, winner of the 1956 Newbery Medal, Jean Lee Latham writes an absorbing biography of Matthew Fontaine Maury, the man considered to be the father of modern oceanography. In the early 1800s, the voyage from New York to San Francisco took six months. That was before Maury, a lieutenant in the US Navy, blazed a trail for ships to follow. The first ship to follow Maury's directions based on his wind and current charts cut nearly two months off that time. Later, clipper ships cut that time in

half. For seven years Maury had fought against skepticism and bitter opposition, for the cooperation needed to gather data for his charts. Years later, at a worldwide peacetime conference in Brussels, which he organized in 1853, nine-tenths of the world's ships were helping Maury collect data and blaze more trails. After the success of his charts, Maury blazed on with more new ideas: he campaigned for a Naval Academy, for better fortification of our southern ports, and separate shipping lanes for eastbound and westbound routes in the Atlantic to avoid deadly collisions. Jean Lee Latham gives a warm, lively picture of the man and a clear explanation of his

achievements. Victor Mays' drawings are both powerful and authentic. There is no discussion of slavery in this biography.

Rifles for Watie
HarperCollins

Jeff Bussey walked briskly up the rutted wagon road toward Fort Leavenworth on his way to join the Union volunteers. It was 1861 in Linn County, Kansas, and Jeff was elated at the

prospect of fighting for the North at last. In the Indian country south of Kansas there was dread in the air; and the name, Stand Watie, was on every tongue. A hero to the rebel, a devil to the Union man, Stand Watie led the Cherokee Indian Nation fearlessly and successfully on savage raids behind the Union lines. Jeff came to know the Watie men only too well. He was probably the only soldier in the West to see the Civil War from both sides and live to tell about it. Amid the roar of cannon and the swish of flying grape, Jeff learned what it meant to fight in battle. He learned how it felt never to have enough to eat, to forage for his food or starve. He saw the green fields of Kansas

and Okla-homa laid waste by Watie's raiding parties, homes gutted, precious corn deliberately uprooted. He marched endlessly across parched, hot land, through mud and slash-ing rain, always hungry, always dirty and dog-tired. And, Jeff, plain-spoken and honest, made friends and enemies. The friends were strong men like Noah Babbitt, the itinerant printer who once walked from Topeka to Galveston to see the magnolias in bloom; boys like Jimmy Lear, too young to carry a gun but old enough to give up his life at Cane Hill; ugly, big-eared Heifer, who made the best sourdough biscuits in the Choctaw country; and beautiful Lucy Washbourne, rebel to the marrow and proud

of it. The enemies were men of an-other breed - hard-bitten Captain Clardy for one, a cruel officer with hatred for Jeff in his eyes and a dark secret on his soul. This is a rich and sweeping novel-rich in its panorama of history; in its details so clear that the reader never doubts for a moment that he is there; in its dozens of different people, each one fully realized and wholly recognizable. It is a story of a lesser -- known part of the Civil War, the Western campaign, a part different in its issues and its problems, and fought with a different savagery. Inexorably it moves to a dramatic climax, evoking a brilliant picture of a war and the men of both sides who fought in it.

Tomie dePaola's childhood memories are hilarious, and his charming illustrations are sure to please. "A thoroughly

entertaining and charming story."—School Library Journal "DePaola successfully evokes the voice of a precocious, inquisitive five-year-old everyone would want to befriend.
