The EZE castrator works by placing a thick rubber band around the scrotum, above the nuts. The band is then stretched by a ratchet and a metal clip fitted near the scrotum. A blade is then triggered to cut the unclipped part of the band. The result is that the clipped band fits incredibly tightly, squeezing the scrotum and the cords and shutting off the blood supply to the nuts. The scrotum ...

For a while now I have talked about castration of people you know and are close to but today I want to talk about castrating complete strangers a little more. First off, this is an amazing practice. Too many men abuse or are rude to women and get away with it. So picking random man at your college campus or on the streets, getting somewhere where the two of you are alone and taking his ...
