This is a study of the origins and nature of Japanese imperialism from the Sino-Japanese war of 1894-1895 through to 1945. Japan is the only Asian country in modern times to have built both a successful industrial economy and an empire, and it is Professor Beasley's contention that these two phenomena are closely related.

This is an exceedingly dry, academic overview of Japanese foreign policy from 1894-1945. For the academic, it is probably an invaluable resource, but for the lay reader, it is a very slow read and not worthwhile. There are two major problems with the work. First, Beasley's style is extremely dry. The writing style is not in any way bad, just boring.
