Understanding By Design

Understanding by Design is a book written by Grant Wiggins and Jay McTighe that offers a framework for designing courses and content units called “Backward Design.” Instructors typically approach course design in a “forward design” manner, meaning they consider the learning activities (how to teach the content), develop assessments around their learning activities, then attempt to draw connections to the learning goals of the course.

Understanding by Design, or UbD, is an educational planning approach. UbD is an example of backward design, the practice of looking at the outcomes in order to design curriculum units, performance assessments, and classroom instruction. UbD focuses on teaching to achieve understanding. It is advocated by Jay McTighe and Grant Wiggins in their Understanding by Design, published by the Association for Supervision and Curriculum Development. Understanding by Design - Wikipedia

Understanding by Design introduces teachers to the three-stage "Backward Design Process," which advocates starting with the end - the desired results (goals or standards) - and then deriving the curriculum from the evidence of learning (performance) called for by the standard and finally, the teaching needed to equip students to perform.

Understanding By Design, or UBD, is a framework and accompanying design process for thinking decisively about unit lesson planning. The concept was developed by Jay McTighe and Grant Wiggins, and as part of their principles they state that UBD “...is not a philosophy of education”. It is not designed to tell teachers what or how to teach; it is a system to help them teach more effectively.
