Problem Solving; Decision making; Creative Thinking; Empathy; Course Feature. The course is 100% online and based on activity-based learning.

Solving problems with design thinking

This led to the idea that scientists solve problems by a process of analysis, whilst designers solve problems by synthesis. However, later evidence suggests that designers apply both forms of problem solving to attain "design thinking". They do this via a process of divergent thinking. A designer will examine as many possible solutions at the beginning of a process as they can think of – then they will apply the scientific side (convergent thinking) to narrow these solutions down to ...
