This book will help take you far into the intricacies of a 2200+ chess level. Finally coming to what is arguably the best endgame book ever written, we have Dvoretsky's masterful Endgame Manual. Although the word Manual implies to many a basic level, this book is one that most Grand Masters out there can learn from. Most importantly, even though it's not for absolute beginners it does span the Beginner-Advanced continuum in a way that no other book that I know does.

Basic endgame strategy Although there are fewer pieces on the board, endgame positions can be just as difficult as any other position in chess. Many of the same strategical themes from the middlegame apply in the endgame - isolated and backwards pawns are still weak, bad bishops are very much a liability, and a knight in the centre is usually better than a knight on the rim.
