It is not just about acquiring a new language, but also about understanding another culture and developing another identity.

Bilingualism and Second Language Acquisition > SCILT

In the first half of the 20 th century, the prevailing view was that bilingualism and second-language acquisition early in life made children confused and interfered with their ability to develop normal cognitive functions 1 and succeed in educational environments. 2 These ideas were dramatically reversed in a landmark study by Peal and Lambert 3 that showed a general superiority of bilinguals over monolinguals in a wide range of intelligence tests and aspects of school achievement.

Second language | Second-Language Acquisition and ...

There are many positive affective factors for second language acquisition and bilingualism. Some positive factors can be listed as: the student’s attitude towards learning the new language, the teacher motivational attitude, and the proficiency in the student’s first language. Also learning a second language at an early age can have a positive effect on intellectual growth, and also enhance and enrich the child’s mental and development.
