Manual Drawing Practice

Manual drafting is the practice of creating drawings by hand. Manual drafting techniques have traditionally enabled the planning and communication of design ideas and construction information. As there is a very diverse range of information that may need to be communicated, there are a similarly wide range of drawing types.

Below are the drafting manuals that CALC is aware of. Further down this page is a table of other resources. CALC is unable to provide recommendations about drafting manuals. Also, there may be other drafting manuals that CALC is not aware of. If you have information about other drafting manuals, please send details to webmaster@calc.ngo.

Drafting manuals and other resources | Commonwealth ...

Work Done is Original: In the past, drafters sat at drawing boards and used pencils, pens, compasses, protractors, triangles, and other drafting

devices to prepare a drawing by hand. When doing manual drafting, most of the drafting work is done by technical people like the architect / engineer / diploma holders making their work to be genuine. The ability to bring creative style and expression to drawings is higher in manual drafting.
