Break-In Oils and Assembly Lube Needs
Engine building is a process that should go well when everything is done correctly. A lot of things can go wrong during those first few minutes following the initial start-up of a freshly built engine. The engine has to build oil pressure quickly so all of the critical wear surfaces will receive lubrication.

Engine building allows a game to “ramp up”, to change what is possible throughout the game. In Catan you start off with scraping together resources for a single road, but in the end you can build a new city every turn. And while technically you could build cities from the very start, practically this is generally not feasible.
