Capitalizing on Crisis:
The Political Origins of
the Rise of Finance.
Capitalizing on Crisis
offers a political
sociology of the rise of
finance in the U.S.
economy over the last
three decades.
Krippner's core
argument is that
successive U.S.
administrations
embraced policy
choices that
heightened
financialization as a

way to escape direct
confrontation with the
pressing issues of fiscal
crisis and legitimization
crisis that emerged in
the late 1960's, rather

Krippner argues that
economic and social
dysfunctions arising
from the Vietnam War,
inflation, and the
breakdown of the
housing finance system
provoked the state (the
Congress, the
presidency, and
monetary authorities)
to reform the financial
system by deregulating
interest rates,
liberalizing capital
flows, and through
experimental and
aggressive monetary
policy.
