The Role of Management Information Systems | Smartsheet

The third edition of Strategic Information Management: Challenges and Strategies in Managing Information Systems, edited by Robert D. Galliers and Dorothy E. Leidner, states "The notion that systems should be made to appeal to their users in every stage of development and in their final form encouraged the development of 'user friendly' systems, in the hope that early usability would reduce the requests for subsequent maintenance."

Information Management Best Practices | Smartsheet

Information management concerns a cycle of organizational activity: the acquisition of information from one or more sources, the custodianship and the distribution of that information to those who need it, and its ultimate disposition through archiving or deletion. This cycle of information organisation involves a variety of stakeholders, including those who are responsible for assuring the quality, accessibility and utility of acquired information; those who are responsible for its safe storage
