No One Gets Out Alive

Now a major NETFLIX film *Pan Macmillan*

Now a major Netflix film. Winner of the August Derleth Award, No One Gets Out Alive is the ultimate haunted house thriller from horror writer Adam Nevill. Darkness lives within . . . Cash-strapped, working for agencies and living in shared accommodation, Stephanie Booth feels she can fall no further. So when she takes a new room at the right price, she believes her luck has finally turned. But 82 Edgware Road is not what it appears to be. It's not only the eerie atmosphere of the vast, neglected house, or the disturbing attitude of her new landlord, Knacker McGuire, that makes her uneasy - it's the whispers behind the fireplace, the scratching beneath floors, the footsteps in the dark, and the young women weeping in neighbouring rooms. And when Knacker's cousin Fergal arrives, the danger goes vertical. But this is merely a beginning, a gateway to horrors beyond Stephanie's worst nightmares. And in a house where no one listens to the screams, will she ever get out alive?

No One Gets Out Alive

A Novel *St. Martin's Press*

Now a major motion picture on Netflix! When Stephanie moves to the notoriously cheap Perry Bar neighborhood of Birmingham, she's just happy to find an affordable room for rent that's large enough not to deserve her previous room's nickname, "the cell." The eccentric — albeit slightly overly-friendly — landlord seems nice and welcoming enough, the ceilings are high, and all of the other tenants are also girls. Things aren't great, but they're stable. Or at least that's what she tells herself when she impulsively hands over enough money to cover the first month's rent and decides to give it a go. But soon after she becomes uneasy about her rash decision. She hears things in the night. Feels them. Things...or people...who aren't there in the light. Who couldn't be there, because after-all, her door is locked every night, and the key is still in place in the morning. Concern soon turns to terror when the voices she hears and presence she feels each night become hostile. It's clear that something very bad has happened in this house. And something even worse is happening now. Stephanie has to find a way out, before whatever's going on in the house finds her first. Adam Nevill's No One Gets Out Alive will chill you straight through to the core — a cold, merciless, fear-inducing nightmare to the last page. A word of caution, don't read this one in the dark.

No One Here Gets Out Alive *Hachette UK*

Here is Jim Morrison in all his complexity-singer, philosopher, poet, delinquent-the brilliant, charismatic, and obsessed seeker who rejected authority in any form, the explorer who probed "the bounds of reality to see what would happen..." Seven years in the writing, this definitive biography is the work of two men whose empathy and experience with Jim Morrison uniquely prepared them to recount this modern tragedy: Jerry Hopkins, whose famous Presley biography, Elvis, was inspired by Morrison's suggestion, and Danny Sugerman, confidant of and aide to the Doors. With an afterword by Michael McClure.

Nobody Gets Out Alive

Stories *Simon and Schuster*

Named a MOST ANTICIPATED book by Vogue, Literary Hub, The Millions, Good Housekeeping, and Oprah Daily From the prizewinning, debut fiction author: an exhilarating virtuosic story collection about women navigating the wilds of male-dominated Alaskan society. Set in Newman's home state of Alaska, *Nobody Gets Out Alive* is a collection of dazzling, courageous stories about women struggling to survive not just grizzly bears and charging moose but the raw, exhausting legacy of their marriages and families. In "Howl Palace"—winner of The Paris Review's Terry Southern Prize, a Best American Short Story, and Pushcart Prize selection—an aging widow struggles with a rogue hunting dog and the memories of her five ex-husbands while selling her house after bankruptcy. In the title story, "Nobody Gets Out Alive," newly married Katrina visits her hometown of Anchorage and blows up her own wedding reception by flirting with the host and running off with an enormous mastodon tusk. Alongside stories set in today's Last Frontier—rife with suburban sprawl, global warming, and opioid addiction—Newman delves into remote wilderness of the 1970s and 80s, bringing to life young girls and single moms in search of a wilder, freer, more adventurous America. The final story takes place in a railroad camp in 1915, where an outspoken heiress stages an elaborate theatrical in order to seduce the wife of her husband's employer, revealing how this masterful storyteller is "not only writing unforgettable, brilliantly complex characters, she's somehow inventing souls" (Kimberly King Parsons, author of *Black Light*).

The Ritual *St. Martin's Griffin*

Now a Netflix Original Movie! When four old University friends set off into the Scandinavian wilderness of the Arctic Circle, they aim to briefly escape the problems of their lives and reconnect with one another. But when Luke, the only man still single and living a precarious existence, finds he has little left in common with his well-heeled friends, tensions rise. With limited experience between them, a shortcut meant to ease their hike turns into a nightmare scenario that could cost them their lives. Lost, hungry, and surrounded by forest untouched for millennia, Luke figures things couldn't possibly get any worse. But then they stumble across an old habitation. Ancient artefacts decorate the walls and there are bones scattered upon the dry floors. The residue of old rites and pagan sacrifice for something that still exists in the forest. Something responsible for the bestial presence that follows their every step. As the four friends stagger in the direction of salvation, they learn that death doesn't come easy among these ancient trees . . .

No One Gets Out Alive

Morality, Terrorism and IPA

So, it's the weekend, you are free from your boring job. You have done all your chores and bought groceries. Now, you just want to relax in your favourite bar with a nice pint of IPA and read a book - or maybe just surf the web. Sounds good, eh? Now, suppose you get there and have just settled in, when the bar is taken over by an armed terrorist. This guy wants to kill you and destroy the building you are in. It turns out that, even though you have never met him, he hates you. You personally. There is going to be a lot of death on this particular Saturday and you are going to choose who dies: thousands of strangers or the people you love. What would you do? Because it may not be what you think. You may not believe what you think you believe.... Please note that this is not a science fiction book. I mean it - I'm not being ironic or trying

to trick you into buying a science fiction book, disguised as a not-science fiction book. If you have read the prologue, you could be forgiven for thinking that. But no, it really is totally down to earth. You see what I did there. Anyway, there are just two aliens in the whole book and only one of them features in the action. The rest is all humans and it all takes place here on Earth. The aliens are only there as a literary device. They could have been Buddhist monks but that wouldn't work because ... well, read the story and you will see. So, if it isn't science fiction, then what is it? Good question. I can say for sure that it is not a crime thriller or a love story (although there is a tiny hint of romance). Apart from that, it is sort of all genres and none at all. You will find in these pages, politics, philosophy, religion, atheism, feminism, racism, fascism, love, war, death, social justice, sex, terrorism ... and a cry across the aeons from an antediluvian civilisation. This is a story about our society and the mistakes we are making but it is also about the personal journey that each of us must take in order to evolve as individuals and, from that, as a species. The story revolves around a would-be terrorist and his intended victims. We look at what brought him to the place where he thought killing was a good idea. More than that, we explore why it really isn't a good idea, the true consequences of his actions and his alternatives. Furthermore, it is commentary on the polarisation of society around politics, belief and thought. The book explores this division and gives a clear warning about the dangers of binary thinking. The central characters give a starting point for fixing things but do not provide answers. The point of this story is to hold a mirror and allow us to see ourselves and what we are making of our time here on earth. Because, after all, no one gets out alive.

World History: No One Gets Out Alive

Last Days *St. Martin's Griffin*

Last Days (winner of the British Fantasy Award for Best Horror Novel of the Year) by Adam Nevill is a Blair Witch style novel in which a documentary film-maker undertakes the investigation of a dangerous cult—with creepy consequences. When guerrilla documentary maker, Kyle Freeman, is asked to shoot a film on the notorious cult known as the Temple of the Last Days, it appears his prayers have been answered. The cult became a worldwide phenomenon in 1975 when there was a massacre including the death of its infamous leader, Sister Katherine. Kyle's brief is to explore the paranormal myths surrounding an organization that became a testament to paranoia, murderous rage, and occult rituals. The shoot's locations take him to the cult's first temple in London, an abandoned farm in France, and a derelict copper mine in the Arizonan desert where The Temple of the Last Days met its bloody end. But when he interviews those involved in the case, those who haven't broken silence in decades, a series of uncanny events plague the shoots. Troubling out-of-body experiences, nocturnal visitations, the sudden demise of their interviewees and the discovery of ghastly artifacts in their room make Kyle question what exactly it is the cult managed to awaken – and what is its interest in him?

The Reddening: A Folk-Horror Thriller from the Author of The Ritual.

"Nor did it bury the horrors predating civilisation. Ancient rites, old deities and savage ways can reappear in the places you least expect. Lifestyle journalist Katrine escaped past traumas by moving to a coast renowned for seaside holidays and natural beauty. But when a vast hoard of human remains and prehistoric artefacts is discovered in nearby Brickburgh, a hideous shadow engulfs her life." -- Cover.

Catherine can't believe her luck when Mason's elderly niece invites her to stay at Red House itself, where she maintains the collection until his niece exposes her to the dark message behind her uncle's "Art." Catherine tries to concentrate on the job, but Mason's damaged visions begin to raise dark shadows from her own past. Shadows she'd hoped therapy had finally erased. Soon the barriers between reality, sanity and memory start to merge and some truths seem too terrible to be real... in *The House of Small Shadows* by Adam Nevill.

Easy prey, too, for the violent gangs and people-smugglers who thrive in the crumbling world where 'King Death' reigns supreme. The father's world went to hell two years ago. His four-year-old daughter was snatched from his garden when he should have been watching. The moments before her disappearance play in a perpetual loop in his mind. Past Imperfect

French Intellectuals, 1944-1956 *Univ of California Press*

The uniquely prominent role of French intellectuals in European cultural and political life following World War II is the focus of Tony Judt's newest book. He analyzes this intellectual community's most divisive conflicts: how to respond to the promise and the betrayal of Communism and how to sustain a commitment to radical ideals when confronting the hypocrisy in

Stalin's Soviet Union, in the new Eastern European Communist states, and in France itself. Judt shows why this was an all-consuming moral dilemma to a generation of French men and women, how their responses were conditioned by war and occupation, and how post-war political choices have come to sit uneasily on the conscience of later generations of French intellectuals. Judt's analysis extends beyond the writings of fashionable "Existentialist" personalities such as Jean-Paul Sartre, Albert Camus, and Simone de Beauvoir to include a wide intellectual community of Catholic philosophers, non-aligned journalists, literary critics and poets, Communist and non-Communist alike. Judt treats the intellectual dilemmas of the postwar years as an unfinished history. French intellectuals have not fully come to terms with the gnawing sense of what Judt calls the "moral irresponsibility" of those years. The result, he suggests, is a legacy of bad faith and confusion that has damaged France's cultural standing, notably in newly liberated Eastern Europe, and which reflects the nation's larger difficulty in confronting its own ambivalent past.

The Shapeshifters

A Novel *HMH*

This tale of missing children and mythic monsters is “a fantastic novel in every sense of the word” (Karl Ove Knausgård). Summer 1978. A young boy disappears without a trace from a summer cabin. His mother claims he was carried away by a giant. He is never found. Twenty-five years later, another child goes missing. This time there’s a lead, a single photograph taken by Susso Myrén. She’s devoted her life to the search for trolls, legendary giants known as stallo who can control human thoughts and assume animal form. Convinced that the fabled beasts are real, she follows the trail of missing children to northern Sweden. But humans, some part stallo themselves, have been watching over the creatures for generations, and this hidden society of protectors won’t hesitate to close its deadly ranks. Mixing folklore and history, suspense and the supernatural, *The Shapeshifters* is an extraordinary journey into a frozen land where myth bleeds into reality. “Spjut has accomplished the masterstroke of writing convincingly about the existence of trolls and other mythical creatures in the Nordic forests . . . all this unfolds in a language that captures the everyday reality we know so well, with such precision and exquisite style that the words seem to sparkle on the page.” —Karl Ove Knausgård, author of *My Struggle* “A fun, cunning crime thriller . . . If you enjoy the novels of Michael Koryta or Tana French’s *The Secret Place* . . . you might eat up *The Shapeshifters*.” —Chicago Tribune “Spjut turns Scandinavian mythology upside down in a shades-of-gray world built for lovers of fantastical suspense.” —Publishers Weekly

The Lightkeepers

A Novel *Catapult*

Winner of the 2016 B&N Discover Great New Writers Award for Fiction In *The Lightkeepers*, we follow Miranda, a nature photographer who travels to the Farallon Islands, an exotic and dangerous archipelago off the coast of California, for a one-year residency capturing the landscape. Her only companions are the scientists studying there, odd and quirky refugees from the mainland living in rustic conditions; they document the fish populations around the island, the bold trio of sharks called the Sisters that hunt the surrounding waters, and the overwhelming bird population who, at times, create the need to wear hard hats as protection from their attacks. Shortly after her arrival, Miranda is assaulted by one of the inhabitants of the islands. A few days later, her assailant is found dead, perhaps the result of an accident. As the novel unfolds, Miranda gives witness to the natural wonders of this special place as she grapples with what has happened to her and deepens her connection (and her suspicions) to her companions, while falling under the thrall of the legends of the place nicknamed "the Islands of the Dead." And when more violence occurs, each member of this strange community falls under suspicion.

Banquet for the Damned *Pan Macmillan*

Few believed Professor Coldwell could communicate with spirits. But in Scotland's oldest university town something has passed from darkness into light. Now, the young are being haunted by night terrors and those who are visited disappear. This is certainly not a place for outsiders, especially at night. So what chance do a rootless musician and burned-out explorer have of surviving their entanglement with an ageless supernatural evil and the ruthless cult that worships it? A chilling occult thriller from award-winning author Adam Nevill, *Banquet for the Damned* is both a homage to the great age of British ghost stories and a pacey modern tale of Devil worship and witchcraft.

Under a Watchful Eye *Pan Macmillan*

Under a Watchful Eye by Adam Nevill is a supernatural thriller from the award-winning writer of *The Ritual* and *Last Days*. Seb Logan is being watched. He just doesn't know by whom. When the sudden appearance of a dark figure shatters his idyllic coastal

life, he soon realizes that the murky past he thought he'd left behind has far from forgotten him. What's more unsettling is the strange atmosphere that engulfs him at every sighting, plunging his mind into a terrifying paranoia. To be a victim without knowing the tormentor. To be despised without knowing the offence caused. To be seen by what nobody else can see. These are the thoughts which plague his every waking moment. Imprisoned by despair, Seb fears his stalker is not working alone, but rather is involved in a wider conspiracy that threatens everything he has worked for. For there are doors in this world that open into unknown places. Places used by the worst kind of people to achieve their own ends. And once his investigation leads him to stray across the line and into mortal danger, he risks becoming another fatality in a long line of victims . . .

Marjory Stoneman Douglas

Voice of the River *Rowman & Littlefield*

Born in Minnesota in 1890 and raised and educated in Massachusetts, Marjory Stoneman Douglas came to Florida in 1915 to work for her father, who had just started a newspaper called the Herald in a small town called Miami. In this "frontier" town, she recovered from a misjudged marriage, learned to write journalism and fiction and drama, took on the fight for feminism and racial justice and conservation long before those causes became popular, and embarked on a long and uncommonly successful voyage into self-understanding. Way before women did this sort of thing, she recognized her own need for solitude and independence, and built her own little house away from town in an area called Coconut Grove. She still lives there, as she has for over 40 years, with her books and cats and causes, emerging frequently to speak, still a powerful force in ecopolitics. Marjory Stoneman Douglas begins this story of her life by admitting that "the hardest thing is to tell the truth about oneself" and ends it stating her belief that "life should be lived so vividly and so intensely that thoughts of another life, or a longer life, are not necessary." The voice that emerges in between is a voice from the past and a voice from the future, a voice of conviction and common sense with a sense of humor, a voice so many audiences have heard over the years—tough words in a genteel accent emerging from a tiny woman in a floppy hat—which has truly become the voice of the river.

Discovering the Brain *National Academies Press*

The brain ... There is no other part of the human anatomy that is so intriguing. How does it develop and function and why does it sometimes, tragically, degenerate? The answers are complex. In *Discovering the Brain*, science writer Sandra Ackerman cuts

through the complexity to bring this vital topic to the public. The 1990s were declared the "Decade of the Brain" by former President Bush, and the neuroscience community responded with a host of new investigations and conferences. Discovering the Brain is based on the Institute of Medicine conference, Decade of the Brain: Frontiers in Neuroscience and Brain Research. Discovering the Brain is a "field guide" to the brain--an easy-to-read discussion of the brain's physical structure and where functions such as language and music appreciation lie. Ackerman examines How electrical and chemical signals are conveyed in the brain. The mechanisms by which we see, hear, think, and pay attention--and how a "gut feeling" actually originates in the brain. Learning and memory retention, including parallels to computer memory and what they might tell us about our own mental capacity. Development of the brain throughout the life span, with a look at the aging brain. Ackerman provides an enlightening chapter on the connection between the brain's physical condition and various mental disorders and notes what progress can realistically be made toward the prevention and treatment of stroke and other ailments. Finally, she explores the potential for major advances during the "Decade of the Brain," with a look at medical imaging techniques--what various technologies can and cannot tell us--and how the public and private sectors can contribute to continued advances in neuroscience. This highly readable volume will provide the public and policymakers--and many scientists as well--with a helpful guide to understanding the many discoveries that are sure to be announced throughout the "Decade of the Brain."

"This book is the real story."—Robby Krieger "[John] Densmore's is the first Doors biography that feels like it was written for the right reasons, and it is easily the most informed account of the

Doors' brief but brilliant life as a group. . . . Densmore is a fluent, articulate writer who both comprehends the Doors' unearthly power and is on familiar terms with their antecedents in literature, theater, and myth."—Rolling Stone "Well-written and touching . . . tells it all and tells it honestly."—The New York Times Book Review "John Densmore's Riders of the Storm is as good an account of the history of the Doors as has been printed to date."—USA Today "Riders on the Storm is very enjoyable, especially its homespun and self-experienced insights. John Densmore is a survivor and a seeker."—Oliver Stone

Getting Out Alive

I am writing this down for the ones who believe and the ones who were there. Go ahead and laugh and say it's not true but it is. This is one of many diaries of the zombie apocalypse. Nobody was ready for it when it happened but some in fact were. My family and I were some of those people. At first we did not know they were zombies. We weren't sure what they were. It did not take long to figure it out.

Hasty for the Dark

Selected Horrors

These selected terrors range from the speculative to supernatural horror, encompass the infernal and the occult, and include stories inspired by H. P. Lovecraft, Robert Aickman and Ramsey Campbell. Hasty for the Dark is the second short story collection from the award-winning and widely appreciated British writer of horror fiction, Adam L. G. Nevill. The author's best horror stories from 2009 to 2015 are collected here for the first time. The hardest journeys in life and death are taken underground. No blackmail is as ghastly as extortion from angels. A swift reckoning often travels in handheld luggage. Once considered inhumane and now derelict, this zoo may not be as empty as assumed. A bad marriage, a killer couple, and part of a wider movement. No sign of life aboard an abandoned freighter, but what is left below deck tells a strange story. The origin of our species is not what we think. In destitution, the future for revolution and mass murder is so bright. Your memories may not be your own, and your life nothing more than a ritual that will compel you to perform an atrocity . . . Praise for the author's first collection of horror stories, *Some Will Not Sleep: Selected Horrors*: "Great storytelling, but across a wider palate and range of styles than you might have expected, leading to some delightfully unexpected visions and hellscapes." *Gingernuts of Horror* "There is not one single tale which feels less than the others, none which seem to be mere 'filler'. They are beautifully crafted, original and complete works which nevertheless fit well together as arranged by the author." This is Horror "In 'Some Will Not Sleep' nothing is sacred, nothing is safe, and goodness me, if you like horror fiction you're going to absolutely love every damn minute." *Pop Mythology* Praise for Adam Nevill's horror novels: "Adam Nevill is a spine-chiller in the classic tradition, a writer who draws you in from the world of the familiar, eases you into the world of terror, and then locks the door behind you." Michael Koryta, NYT Bestselling author "Modern storytelling ... and old school terror. Very scary, highly recommended" - Jonathan Maberry, NYT bestselling author "One of the most subtle and powerful writers of dark fiction - a unique voice" - Michael Marshall Smith, NYT Bestselling author "Chilling, disorienting, and deeply creepy" - Scott Smith (author of 'The Ruins' on 'House of Small Shadows') "Nevill is fast becoming Britain's answer to Stephen King" - Guardian "He has the rare ability to craft a nebulous atmosphere of terror, as well as to capture cinematic slasherpunk in the written word. Both are incredibly rare talents." Pornokitsch "The

sense of dread is immediate, with the reader's sense of foreboding increasing with every new page." Irish Examiner "Readers will lose all hope of peaceful, undisturbed sleep. Highly recommended." Library Journal - Starred Review "Nevill's talent for horror resonates ominously in every scene, almost as if the theme from Jaws echoes when a page is turned." Kirkus
