The Administration Of Fear Paul

An interview of Paul Virilio conducted by Bertrand Richard. These are comments on how globalization and technology are speeding up the world, and this changes how humans experience fear. His overall judgment is that there used to be a cultural assumption that fear is childish and undesirable, but today, politicians and media professionals send the message that we should all be afraid all the time.

The Administration of Fear by Paul Virilio

The administration of fear also means that states are tempted to create policies for the orchestration and management of fear. Globalization has progressively eaten away at the traditional prerogatives of states (most notably of the welfare state), and states have to convince citizens that they can ensure their physical safety.
