Our Lady of the Flowers *Open Road + Grove/Atlantic*

The shattering novel of underground life the New York Times called "a cry of rapture and horror . . . the purest lyrical genius." Jean Genet's debut novel *Our Lady of the Flowers*, which is often considered to be his masterpiece, was

written entirely in the solitude of a prison cell. A semi-autobiographical account of one man's journey through the Paris demi-monde, dubbed "the epic of masturbation" by no less a figure than Jean-Paul Sartre, the novel's exceptional value lies in its exquisite ambiguity.

Midsummer Moon

Open Road Media

A duke's well-ordered world is turned upside down when a female inventor sends his heart soaring in this Regency romance by a New York Times–bestselling author. Merlin

Lambourne has invented the “speaking box”—a sort of telephone—which is so valuable that Napoleon has killed for it. Sent by the crown to bring both inventor and invention to safety, Ransom Falconer, Duke of Damerell, is shocked to learn Mr. Lambourne is a Miss. Perhaps more shocking, however, are his feelings for the eccentric genius. She is everything he doesn't like: incapable of following orders, unaware of conventional etiquette, preoccupied, disorganized, and unkempt. Yet she beguiles him. One of the most ingenious inventors in England, she is also one of the country's greatest hopes in the defense against the power mad Napoleon Bonaparte.

Now, if he could just get her mind out of the clouds and convince her to marry him . . . Merlin is not absentminded, it's just that she only seems to be able to pay attention to one thing at a time. And maybe she does take everything people say literally, but people ought to say what they mean. Now this Ransom Falconer wants her to forget her current interest in flying machines and focus on the speaking box she's lost interest in finishing. It's quite disconcerting. In fact, everything about him is disconcerting; in her isolated life Merlin has never met anyone who affects her quite like Ransom does. With her trademark blend of heartwarming characters and a

hilarious conflict, *Midsummer Moon* is yet another winner from the author of *Flowers from the Storm*, praised by Lisa Kleypas as "the gold standard in historical romance."

Dreaming the Serpent Spear

A Novel of Boudica, The Warrior Queen *Seal Books*

The fourth and final novel in the magnificent saga of Britain's warrior queen (Boudica - "Bringer of Victory" and the last defender of the Celtic culture) will capture readers' hearts and

minds, as Manda Scott brings the series to a stunning close. It is AD 60 and the flame of rebellion that has been smouldering for 20 years of Roman occupation has flared into a conflagration that will consume the land and all who live in it. There is no going back. Boudica has been flogged and her daughters raped, and her son has burned a Roman watchtower in an act of blatant insurgency. This is the time to act: the Roman governor has marched his legions west to destroy the druidic stronghold of Mona, leaving his capital and a vital seaport hopelessly undefended in the face of twenty-thousand warriors aching for vengeance. But to crush the legions for all time,

Boudica must do more than lead her army in the greatest rebellion Britain has ever known. She must find healing for herself, for the land, and for Graine, her 8-year-old daughter, who has taken refuge on Mona. Is revenge worth it under any circumstances, or is the cost more than anyone can bear? Colchester is burning and London is lost without hope. Amidst fire and bloody revolution – a battle that will change the face and spirituality of a nation for centuries to come – Boudica and those around her must find what matters most, now and for ever.

She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most

important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb's effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta's family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her

husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with

questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.

The New York Times Best-Selling Series Continues. First Time in Paperback. A New War for Honor Harrington’s Comrades on Manticore. Rear Admiral Michelle Henke was commanding one of the ships in a force

led by Honor Harrington in all-out space battle. The odds were against the Star Kingdom forces, and they had to run. But Michelle's ship was crippled, and had to be destroyed to prevent superior Manticoran technology from falling into Havenite hands, and she and her surviving crew were taken prisoner. Much to her surprise, she was repatriated to Manticore, carrying a request for a summit conference between the leaders of the two sides which might end the war. But a condition of her return was that she gave her parole not to fight against the forces of the Republic of Haven until she had been officially exchanged for a Havenite prisoner of war, so she was given

a command far away from the war's battle lines. What she didn't realize was that she would find herself on a collision course, not with a hostile government, but with the interstellar syndicate of criminals known as Manpower. And Manpower had its own plans for eliminating Manticore as a possible threat to its lucrative slave trade, deadly plans which remain hidden in the shadows.

Echoes in the Storm

One week is all we were supposed to share. One week as strangers. All the things you did differently irked me. I thought it meant we couldn't get along, that there was no chance we'd work out. But when it came time for me to leave, you know

what I figured out? You were my echo. My call back. And damn it if I didn't find home in the end.

1913

The Year Before the Storm

A witty yet moving narrative worked up from sketched biographical fragments, 1913 is an intimate vision of a world that is about to change forever. The stuffy conventions of the nineteenth century are receding into the past, and 1913 heralds a new age of unlimited possibility. Kafka falls in love; Louis Armstrong learns to play the trumpet; a young seamstress called Coco Chanel opens her first boutique; Charlie Chaplin signs his first

movie contract; and new drugs like cocaine usher in an age of decadence. Yet everywhere there is the premonition of ruin - the number 13 is omnipresent, and in London, Paris and Vienna, artists take the omen and act as if there were no tomorrow. In a Munich hotel lobby, Rilke and Freud discuss beauty and transience; Proust sets out in search of lost time; and while Stravinsky celebrates the Rite of Spring with industrial cacophony, an Austrian postcard painter by the name of Adolf Hitler sells his conventional cityscapes.

The Flower Yard

Growing Flamboyant Flowers in Containers - THE SUNDAY TIMES BESTSELLER *Hachette UK*

The Times Best Gardening Books of the Year 2021 'The Flower Yard is simply gorgeous. Inspirational, sumptuous and packed with refreshingly down-to-earth advice. I love this book.' Nigel Slater 'The Kew-trained king of the small-space

garden.' Guardian Arthur Parkinson's town garden is like a path of pots, a tiny, exposed stage on bricks. Despite its small size, a flower-filled jungle in Venetian tones is grown here each year, in defiance of urbanisation. The plants act like drapes, closing gently as their growth engulfs the front door, from either side of the path, to the buzz of precious bees. This is gardening done entirely in pots, yet on a grand scale that will inspire anyone who wants their doorstep or patio to be a glamorous and lively canvas that nurtures them visually and mentally. From jewel scatterings of crocus, flocks of parrot tulips and scented sweet peas to galaxies of single dahlias, towering

giraffes of amaryllises grown inside for winter and endless vases of cut blooms through the seasons. With his bantam hens at his feet, Arthur shares his life, knowledge, flair and influences for planting creatively, all of which combine to create a space that's rich in ever-changing colour and life.
