Developing Intelligent Agents for Distributed Systems: Exploring Architectures, Techniques, and Applications

Developing Intelligent Agents for Distributed Systems ...

Distributed artificial intelligence systems were conceived as a group of intelligent entities, called agents, that interacted by cooperation, by coexistence or by competition. DAI is categorized into Multi-agent systems and distributed problem solving [1]. In Multi-agent systems the main focus is how agents coordinate their knowledge and activities. For distributed problem solving the major focus is how the problem is decomposed and the solutions are synthesized.
